

As Mathematicians we will

In Mathematics, we are beginning our Place Value unit. We will explore the value of digits within numbers and develop our ability to read, write, compare and order numbers. We will also investigate Roman numerals, learning how this ancient number system works and how it connects to the numbers we use today.

In Religious Education we will

We will explore the history and traditions of Harvest, learning how Christian values encourage us to be thankful, generous and support those in need. We will also discover how other faiths express gratitude and giving.

As Scientists we will

Be looking at the digestive system. We will be focussing on the different components and their functions. Then, we will be looking at teeth. We will be looking at the importance of our teeth and the different roles they play. Finally, we will be looking at the teeth of different animals and how they are best suited to the diets. We will be comparing different food chains and the roles of different predators and prey.

As geographers we will

We will be heading to Africa. We will be looking at the different countries located there by drawing on our prior knowledge and using a range of maps. We will develop our understanding of how people and animals live in different environments and discover the incredible diversity found across the continent. A particular focus will be the Congo Basin, one of the world's most important rainforest environments. We will investigate its unique habitats and the animals that live there, with a special focus on gorillas. We will learn about their adaptations, habitats, diets and behaviours, as well as the importance of protecting their rainforest home.

As Writers we will

In English this term, we will be strengthening our understanding of the fundamentals of grammar and sentence construction.

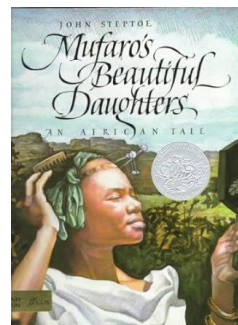

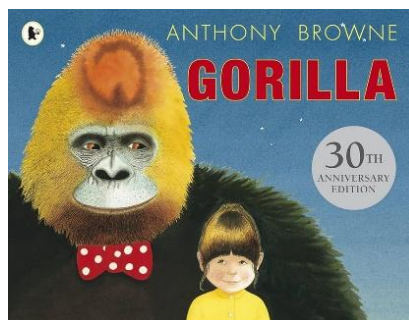

Using *Grammarsaurus* as a key resource, we will explore how words and punctuation work together to create effective sentences. We will develop our understanding of different word classes, sentence structures, punctuation and grammatical rules. Our aim is to help children become confident in both understanding grammar and applying it in their own writing.

St Oswald's Primary School, Worleston

Year group: 3/4

Term: Autumn Half term 1

Topic: Gorillas of Africa

In Computing we will

We will learn how animations are made, trying out different techniques both on paper and using computers. We will finish by creating our own short digital animations.

As Sports People we will learn skills in

In PE this term, we will be developing our physical skills, building confidence, coordination and teamwork through a range of activities and games.

As Musicians we will

Be looking at similarities and differences in music. We will be focussing on folk music and delving into the different types of instruments within this genre of music. Then, we will be focussing on our singing. We will be developing our ability to sing a simple melody before adding musical accompaniments.

As Designers and Technicians we will

Be looking at seasonal foods across the UK and how food is produced. Specifically, we will be focussing on British fruit and vegetables. Afterwards, we will be looking at how fish are caught and processed. Then, we will be considering the ingredients for crumble and how we can prepare this safely and hygienically. We will be having a go at following a recipe to make crumble.
